

# Illinois WIC Program Formulary

Effective: February 1, 2026

The WIC Program promotes and supports breastfeeding as the normative standard for infant feeding and nutrition. WIC recognizes some infants and children will need formula to treat complex medical conditions. WIC provides support, counseling, and other WIC foods when appropriate but does not provide all therapeutic formulas that may be needed. Below is a listing of the formulas currently provided through the Illinois WIC program.

For those with a current medical card, the Illinois Department of Healthcare and Family Services (HFS) may pay for therapeutic formulas not covered by WIC and should be referred to a Durable Medical Equipment provider for assistance.

IL WIC is transitioning to allow participants the option to choose at the time of purchase, any of the powder contract formulas listed below.

Ready to Feed (RTF) products may only be issued in cases where there is unsanitary or restricted water supply, poor refrigeration, when the caregiver has difficulty correctly preparing powder or concentrate formula, physician deems medically necessary for an infant born prematurely or when RTF is the only available option.

Contract Formula	0-3 months	4-5 months	6-12 months	> 1 year	Size (oz)	Form
Similac Advance	9	10	7	10	12.4	Powder
	31	34	24	35	13	Concentrate
	26	28	20	28	32	RTF
Similac Total Comfort	9	10	7	10	12.6	Powder
Similac Soy Isomil	9	10	7	10	12.4	Powder
	31	34	24	35	13	Concentrate
	26	28	20	28	32	RTF
